

• THE ENGAGEMENT MODEL

Diagnose first. Then build.

We don't quote a build before we understand the workflow. Every engagement moves through three steps: a short call to check fit, a paid audit that maps your operation and returns a concrete roadmap, and only then a scoped implementation.

01

Fit & Discovery Call

15–20 minutes to qualify fit, pain and budget. No deep strategy on this call.

Free

NO COMMITMENT

02

AI Workflow Audit & Blueprint

Up to 3 scheduled calls, typically 60–90 minutes each. We map the operation end to end and deliver a written implementation roadmap with a build quote.

\$1,500

FIXED FEE

+ \$500 per additional call, only if mutually agreed

03

Implementation & Build

Scoped and quoted separately once the audit is complete, priced against the roadmap.

\$5k–\$10k+

MINIMUM

Inside the audit

3 CALLS MAX

01

Deep dive & workflow mapping

60–90 MIN

02

Recommendations & system opportunities

60–90 MIN

03

Implementation roadmap & build quote

60–90 MIN

Terms at a glance

SCOPE

Discovery call 15–20 min

Audit calls included 3 max

Total audit call time 3–4.5 hrs

Additional calls \$500 each

Audit fee Due upfront

The audit fee is not credited toward implementation.

The AI Workflow Audit is a standalone paid diagnostic, not a deposit. The roadmap is yours either way. If you choose to build in-house or with someone else, you keep it. Implementation is scoped and billed separately.
